

Employees don't stop representing your organization after 5pm and students are still students after class ends.

Spark Action!

Through meaningful discussions about drugs, alcohol, and consent, personal boundaries, and interpersonal relationships, we help your organization create a community that works.

Spark workshops provide tools for participants to thrive in these non-traditional and informal environments.

Build a community where employees are safe, and productive, and your organization is well-represented.

“ TMI Action provides effective and engaging training, uniquely designed to prevent sexual harassment and sexual violence...I have gained a greater understanding of how sexual harassment and sexual assault manifest in the workplace. ”

– The Nature Conservancy, 2018

Spark Workplaces
