

Lead is a *sexual harassment prevention workshop* for **supervisors, managers** and **organizational leaders**.

Lead Action!

As organizational leaders, you have the unique opportunity to create a culture of respect and collaboration. TMI Action educates supervisors on setting expectations, inspiring healthy communication, and addressing inappropriate workplace behavior. Our interactive approach challenges management teams to evolve their leadership.

“Lead was a much higher caliber than any other [sexual harassment] training I have received. I particularly appreciated the focus on preventing harassment and sexual violence before it occurs. I highly recommend hiring TMI Action and believe that Lead will help improve workplace culture and safety.” – Oregon State University, 2018
